## **Equity Metals Announces Non-Brokered Charity/Premium Flow-through Private Placement**

**Equity Metals Corporation** ("Equity" or the "Company") announces that it proposes to undertake a non-brokered flow-through private placement consisting of 20,000,000 Charity/Premium flow-through units ("FT Units") at \$0.23 for gross proceeds of \$4.6M (the "Offering"). Each FT Unit will be comprised of one flow-through common share and one-half of one non-flow-through share purchase warrant. Each whole warrant entitles the holder thereof to purchase one non-flow-through common share for a period of 3 years at a price of \$0.40.

The proceeds received from the sale of the FT Units will be utilized for the continued exploration and resource expansion at the Silver Queen Au-Ag-Zn vein project and for surface work and drilling on the Au-Ag Arlington property.

The Company may pay finders' fees comprised of cash and non-transferable warrants in connection with the Offering, subject to compliance with the policies of the TSX Venture Exchange. All securities issued and sold under the Offering will be subject to a hold period expiring four months and one day from their date of issuance. Completion of the Offering and the payment of any finders' fees remain subject to the receipt of all necessary regulatory approvals, including the approval of the TSX Venture Exchange.

### **Silver Queen Project**

The Company also reports that it has now completed the drilling component of the Summer '25 drill program on the Silver Queen project. The program successfully extended the No 3 Vein up to 650 metres laterally to the northwest from the modelled 2022 Mineral Resource. Twenty-one core holes totalling 8,059 metres were drilled on the No. 3 North target. A short surface program consisting of reconnaissance soil and stream sediment sampling has been completed to investigate several district-scale targets outboard from the No. 3 Vein system. Since the 2022 Mineral Resource, we have drilled an additional 87 drillholes for 34,494m that will now be factored into the next revised exploration and resource model, in anticipation of a Mineral Resource update to be completed in early Q1 2026.

*This news release does not constitute an offer to sell or a solicitation of an offer to buy any of the securities in the United States of America. The securities have not been and will not be registered under the United*

*States Securities Act of 1933 (the "1933 Act") or any state securities laws and may not be offered or sold within the United States or to U.S. Persons (as defined in the 1933 Act) unless registered under the 1933 Act and applicable state securities laws, or an exemption from such registration is available.*

### **About Silver Queen Project**

The Silver Queen Project is a premier gold-silver property with over 100 years of historic exploration and development and is located adjacent to power, roads and rail with significant mining infrastructure that was developed under previous operators Bradina JV (Bralorne Mines) and Houston Metals Corp. (a Hunt Brothers company). The property contains an historic decline into the No. 3 Vein and the George Lake Vein, as well as camp infrastructure and a maintained Tailings Facility.

The Silver Queen Property consists of 45 mineral claims, 17 crown grants, and two surface crown grants totalling 18,852ha with no underlying royalties. Mineralization is hosted by a series of epithermal veins distributed over a 6 sq km area. An updated NI43-101 Mineral Resource Estimate with effective date December 1<sup>st</sup>, 2022 was detailed in a News Release issued on January 16, 2023, which can be found by clicking [here](#) and the full Technical Report can be found on SEDAR+ and the Company's website.

More than 20 different veins have been identified on the property, forming an extensive network of zoned Cretaceous- to Tertiary-age epithermal veins. The property remains largely under explored.

### **About Equity Metals Corporation**

Equity Metals Corporation is a Malaspina-Manex Group Company. The Company owns 100% interest, with no underlying royalty, in the **Silver Queen project**, located along the Skeena Arch in the Omineca Mining Division, British Columbia. The property hosts high-grade, precious- and base-metal veins related to a buried porphyry system, which has been only partially delineated. The Company also has a controlling JV interest (57.49%) in the **Monument Diamond project, NWT**, strategically located in the Lac De Gras district within 40 km of both the Ekati and Diavik diamond mines and an option to earn a 100% interest in the Arlington Au-Ag-Cu property in Southern BC.

Robert Macdonald, MSc. P.Geo, is VP Exploration of Equity Metals Corporation and a Qualified Person as defined by National Instrument 43-101. He is responsible for the supervision of the exploration on the Silver Queen project and for the preparation of the technical information in this disclosure.

### **On behalf of the Board of Directors**
